What we work for:
The Sustainable Development Goals

On 25th September 2015, 193 countries adopted a set of goals to end poverty, protect the planet and ensure prosperity for all as part of a new global sustainable development agenda.

Each goal has specific targets to be achieved by 2030. UN agencies, funds and programmes such as UN Environment, the United Nations Development Programme and UN-Habitat are all working together to achieve these goals. For the goals to be reached, everyone has to play his or her part: governments, the private sector, civil society and people like you!
